Outline

CAS

Problems we are solving

ACABIMTM Our solution

Relevance to South Korea

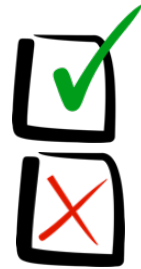

Problems we are solving

1

Current compliance audit practice

**Human
Error 404**

Human experts perform **trivial** but **tedious** tasks!

CAS 

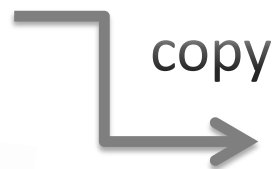

Problems we are solving

One set of **official** regulations!

2

Other solutions

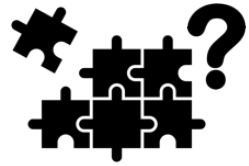

Many **unofficial** proprietary copies of digital regulations!

CAS

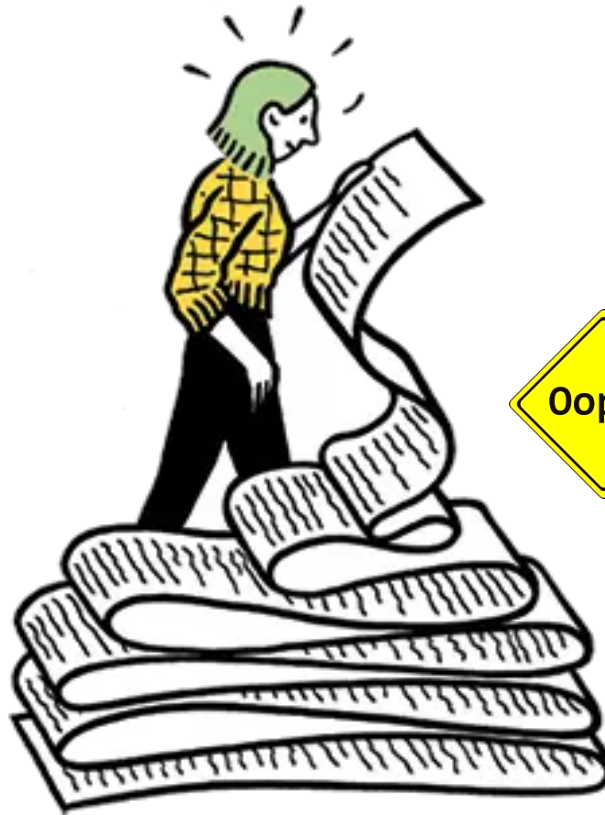

Problems we are solving

3

CAS

Human
Error 404

Human experts doing **trivial** but **tedious** tasks!

ACABIM™

Cloud-based SaaS platform

CAS

Architectural &
Engineering Design

CAS

The ACABIMTM Approach

Reduce human **errors** and associated **costs**!

Support **transparent** processes and **open** standards

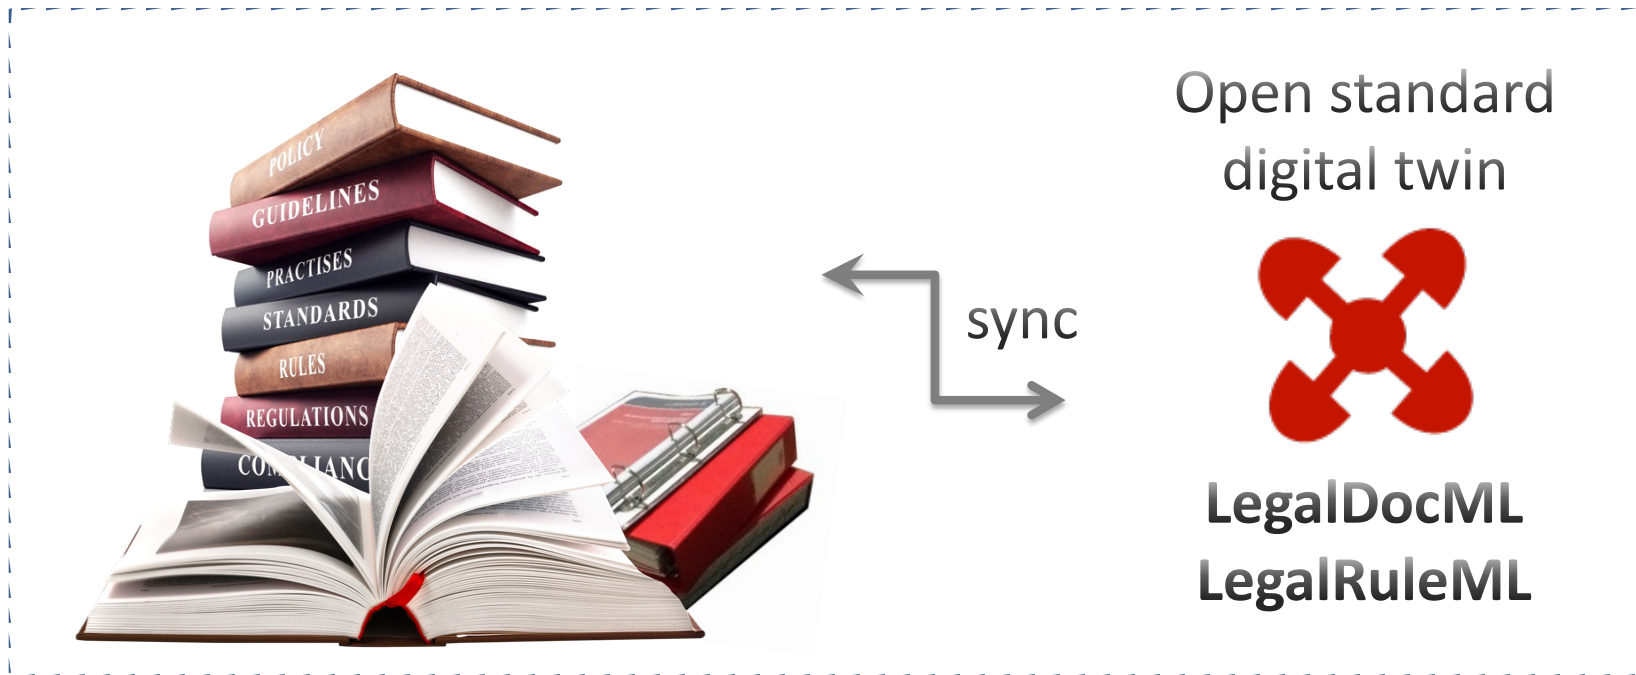

Human-guided Automation:

- Let machines perform **trivial** & **tedious** tasks
- Human experts can focus on creative tasks

The ACABIMTM Approach

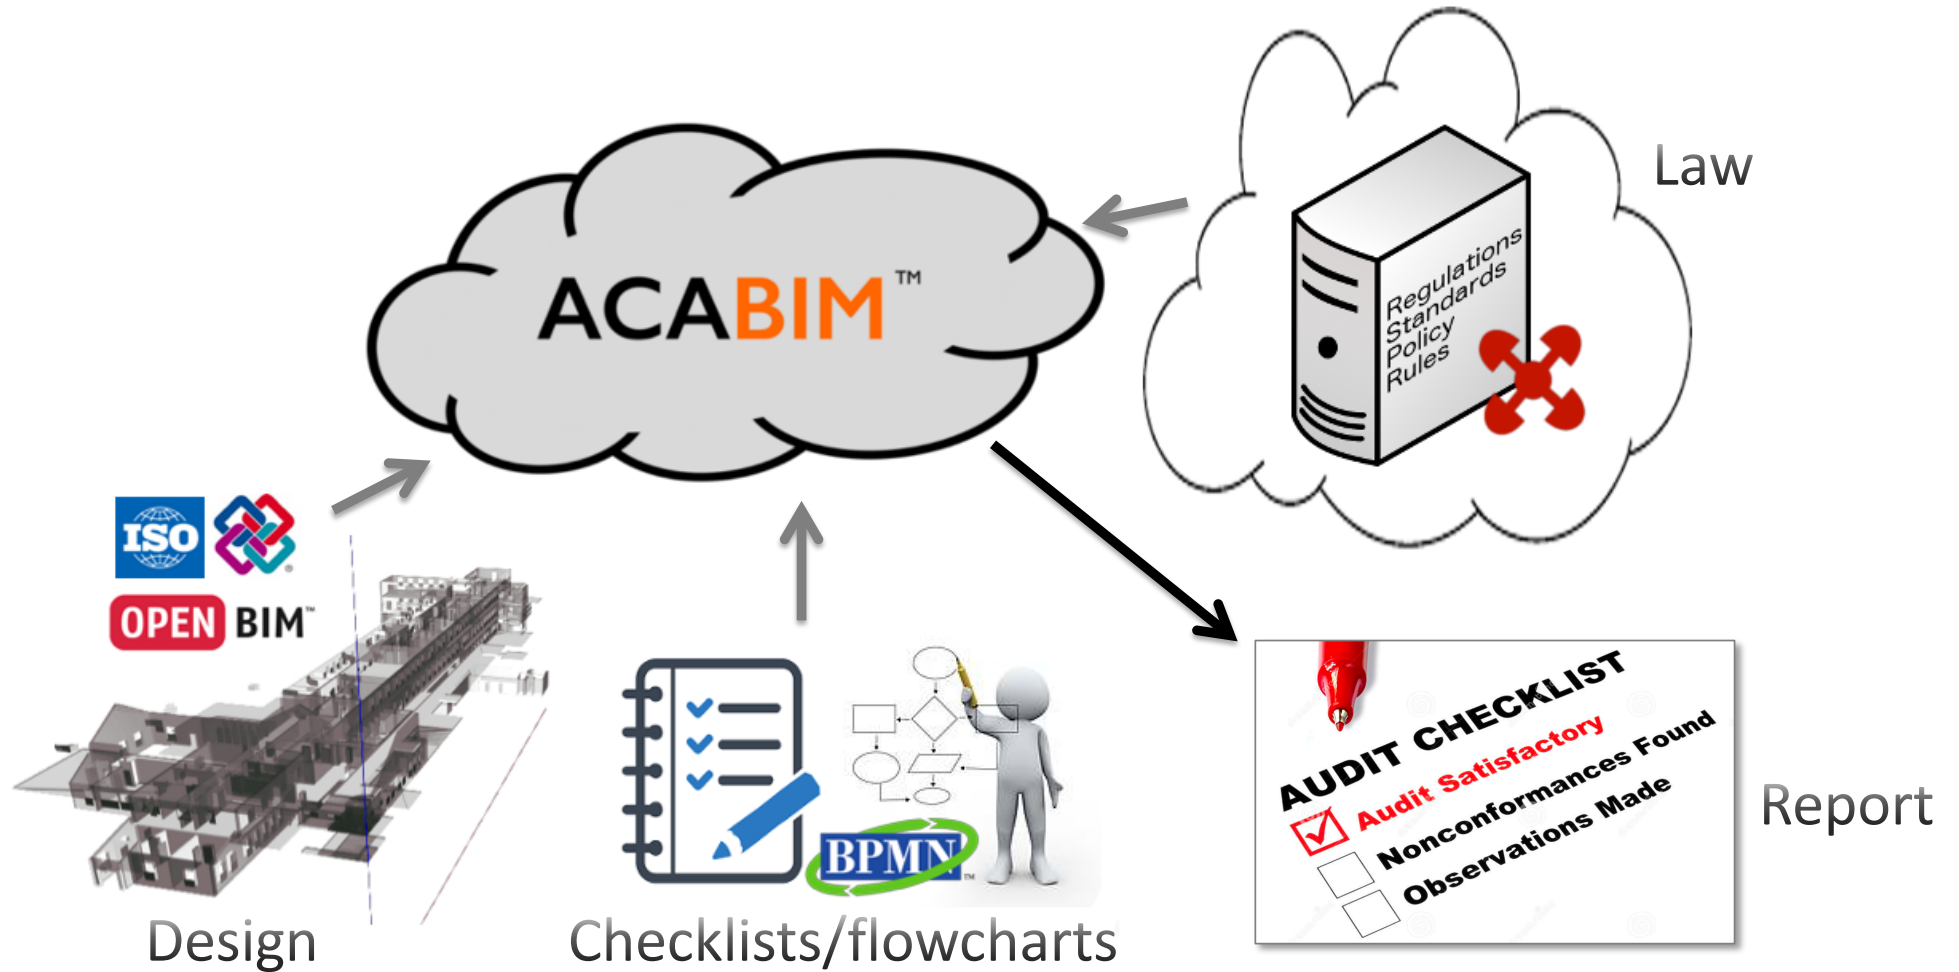

- **One** set of **official** paper-based and equivalent digital regulations
- Officially maintained and served by a government agency

The ACABIM™ Solution

CAS ✓

Relevance to South Korea

- ✓ The global BIM market is forecast to grow to \$15.3 billions by 2022 @19.45% CAGR from 2017
- ✓ 62% uptake of BIM in the construction industry up 8% year-on-year
- ✓ South Korean Ministry of Land, Infrastructure and Transport has invested \$5.8 million to build BIM-based building design standards
- ✓ South Korean Public Procurement Service has made BIM compulsory for all public sector project over \$50 million
- ✓ buildingSMART Korea was established in 1998
